Some countries require insecticide spraying of aircraft prior to a flight while you are on the aircraft. Please visit the [DOT's website](http://www.dhs.gov/dot) for more information.

Federal law forbids the carriage of certain hazardous materials, such as aerosols, fireworks, and flammable liquids and/or powders, aboard the aircraft. IMPORTANT INFORMATION FOR DOMESTIC AIR TRAVELERS: The Federal Real ID Act mandates stricter security standards for state-issued driver's licenses and other forms of identification and prohibits Federal agencies from accepting for official purposes identification that does not meet these standards. Beginning on May 7, 2025, every air traveler will need to present Real ID-compliant identification to be permitted to board a domestic flight; therefore, those holding a non-compliant driver's license will need to present an acceptable alternate form of identification, such as a valid U.S. passport. To avoid disruption to their travel plans, air travelers are strongly encouraged to consult with the Department of Homeland Security (www.dhs.gov/real-id) to determine whether their state-issued identification is Real ID-compliant and, if not, what alternate forms of identification will be accepted at the airport.
